MAY CALL OUT MILITIA

General Uprising at the Pine Ridge
Agency Feared—Doubtful
What Tribe.

Washington, Nov. 2.—The interior department has received advices from New Castle, Wyoming, that a sheriff and a posse of citizens attempted to arrest some Indians when a fight ensued in which the sheriff, one citizen and 20 Indians were killed. Serious trouble is feared.

Denver, Nov. 2.—A special to the Times from Douglas, Wyo., says that a battle has occurred between Deputy Sheriff Cook's posse and the band of Indians who shot and seriously wounded Sheriff W. H. Miller of Weston county and killed Deputy Sheriff Faulkenberg in the fight on Lightning creek, Converse county. No details of the second battle have been received, but it is rumored that several members of the posse were killed. The United States authorities are making an effort to apprehend the Indians.

Deputy Sheriff Killed.
Sheriff Miller was badly wounded and Deputy Sheriff Faulkenberg and three Indians were killed and several Indians and deputies were wounded in the fight with a roving band of Indians who had been slaughtering game. It is not known whether an ambuscade was laid for the officers on Lightning creek, the scene of the battle, or whether the Indians resisted arrest, but several details indicate the former. Several posses started after the Indians. Governor Clatterton of Wyoming may order out the militia.

The Indians who participated in the battles are now hurrying toward the Bad Lands, near Pine Ridge agency, and once there they will be practically secure from capture. It is believed they have sent couriers ahead to the agency, and it is feared there may be a general uprising. The information in the governor's hands is to the effect that the Indians are Sioux from Pine Ridge agency, but another report says they are Crows from the Montana reservation.

Dynamite Explodes in Railroad Yard
Crestline, O., Nov. 2.—The Pennsylvania railroad yards here presented a scene of ruin when daylight came as a result of the explosion of a car of dynamite on a side track. So far as learned no lives were lost, although the huge masses of wrecked freight cars have not yet been thoroughly searched. It is estimated that the financial loss will run from \$400,000 to \$500,000. Hundreds of freight cars were almost completely demolished, while a number of houses in the vicinity of the explosion were badly wrecked. A number of persons received serious cuts and bruises from flying glass. Nearly every window in town was smashed by the terrific concussion.

The burglars pried open a window with a jimmy and ransacked the house, throwing bureau drawers, clothing, etc., on the floor. The household silver was disturbed but not taken. The burglars left a bullet on a window sill as a reminder of what might have happened had they been molested.

SAD AFFAIR AT BARTON

Wagon First Discovered in Pond, Then
Horse and Immediately After
Boy's Body.

Barton, Nov. 2.—This town has been greatly shocked by the singular drowning accident in which Gilbert Leonard, 14 years of age, lost his life. The lad died clinging to the neck of a horse which he was evidently trying to keep from plunging in Stone pond.

The entire incident, up to the discovery of the boy, horse and wagon in the water, passed without being seen by anyone, so that the facts in the case are not fully known.

The first thing that attracted their attention was a portion of a lumber wagon floating near the shore of the pond. Upon examination it was found that a dead horse was attached to the wagon, and when the animal was drawn out of the water the body of Gilbert Leonard was found, the arms being around the horse's neck.

It is supposed that the horse ran away and into the lake, and that young Leonard was trying to stop it.

TESTING FEW SAMPLES.

State Laboratory Finds Some Beer of Small Percentage.

Burlington, Nov. 2.—The officials of the State Laboratory of Hygiene are still busy examining samples of liquor sent to them from different parts of the state. Among one consignment recently received was a sample of beer that contained a small enough per cent. of alcohol to have sold under the prohibitory law. How much of this kind dispensed to customers over the bars of the saloons at a good round price is a question not easily answered.

The officials are at present working on samples from St. Albans. None has been examined from the dealers in this city, and as yet but few of the cities or towns have sent samples to be analyzed.

GOODS FOUND IN HIS TRUNK

Albert Seger, Alias Bert Harvey Will
Be Brought Back to Barre
Tomorrow.

When Henry Finnan went to his room in the Comstock boarding house on West street, yesterday noon, he found that his trunk had been broken open and \$9 in money, a coat and vest, a French briar pipe and one blue flannel shirt had been taken.

He notified Mrs. Comstock and suspicion was at once directed to Albert Seger, alias "Bert Harvey," who had been boarding in the house until yesterday forenoon. Early in the morning, after Finnan had gone to work, Seger came down stairs and borrowed a hammer of Mrs. Comstock, and it is supposed he returned to Finnan's room and rifled the trunk.

He tried to make connections with the 7.30 train out of Barre over the Wells River road, but failed, and went over to the Central and left on the 8.35, buying a ticket for Portland.

The officers were not notified until afternoon, but Chief Brown at once telegraphed to Portland to have Seger arrested. Last night the chief received word from the Portland police that they had the man, having arrested him as he was leaving the train last evening. His identification was easy as, in addition to the personal description of the man, the number of his baggage check had been telegraphed to the Portland police.

When Seger's baggage was searched all the stolen goods were found. One of the local officers will go to Portland tomorrow to get the man about whom little is known here. Seger only recently arrived in Barre. Finnan, the man who was robbed, is employed as a concrete worker.

MAIN STREET PAVING.

Street Railway Has Paid Good Part of Its Share of Cost of Paving.

The hearing before the street commissioners yesterday on paving assessments was adjourned at 4 o'clock until 12 today. The hearing yesterday developed no further opposition than was recorded in yesterday's Times. There was considerable questioning of the street commissioners about the work done and other matters pertaining to the paving of Main street. The Street Railway Co. has already paid to the city \$2,852.17 of its share of the expense of putting in the paving. The cost of the paving blocks to the city has been a matter of more or less discussion since the beginning of the season. The city asked for bids for blocks and the lowest price submitted was from Morse & Egan, who bid \$39 on the cars at the quarries. The street commissioners rejected all the bids and bought where they could get blocks, with the result that the average price on all purchased was \$3.60 a thousand less than Morse & Egan's bid.

Many of those at yesterday's hearing stated after adjournment that they meant to pay their assessments in full at once.

NEGOTIATIONS FUTILE.

Montpelier Seminary Would Not Play On Own Grounds.

Montpelier, Nov. 2.—The result of the attempt this afternoon to open negotiations for a return foot ball game between Montpelier and Goddard seminaries was futile and the game is now off for the season.

Prof. Cunnell suggested that if his offer was not accepted Montpelier and Goddard seminaries might as well give up forever the idea of having athletic sports between the two teams. The Montpelier boys held to their original vote to cancel the game that was to have been played this afternoon and negotiations were at an end.

TO ASK VOTERS
TO REPAY TAXW. C. Quinlen to Take
Case Before Them.

BARRE GRANITE EXHIBIT

Committee From Manufacturers Visits
Council—Matter To Be Taken Up
In City Meeting.

W. C. Quinlen in his endeavor to recover a portion of the taxes paid on his block during the past four years, is going to take the matter into the city meeting, and a petition to the mayor for such a meeting was presented to the city council last evening. The petition which was signed by 30 legal voters, recites that a special city meeting of the voters of Barre is wanted, "to see if the legal voters of the city of Barre will vote to pay W. C. Quinlen his claim for taxes unjustly and illegally collected from him for the years 1899, 1900, 1901 and 1902." It was decided to call the meeting for Monday evening, Nov. 16.

Wm. Barclay, Wm. Alexander and George Gray, the committee from the Granite Manufacturers' Association looking toward a granite exhibit at the St. Louis exhibition, appeared before the city council to see if the city would desire to help in so worthy a cause which was to be a benefit to the whole city as well as surrounding towns. Each member of the committee spoke briefly of the benefits to be derived by the whole community of Barre by such an exhibit. It was stated the expense of such an exhibit would be in the neighborhood of \$8,000.

Alderman Albisetti spoke in favor of the project and suggested it would be well to take the matter before the city meeting on the 16th. Alderman Robbins desired to have the city attorney consulted on what the city could do in the matter.

Mayor Jackson thought it a matter of considerable importance to the city and that the return from such an exhibit at St. Louis would be a great benefit to Barre, and if there were legal objections to the council doing anything, he wished to be considered as ready to contribute personally.

City Attorney Gordon was called in to state the legal aspect of the case. He said the city council could not legally appropriate money for the purpose.

Alderman Currier thought if there was any way around by which the city could help the project it should do it, but if it could not, every man should take hold of the enterprise and do all they could in the matter.

It was moved and voted that the council as individuals do all in their power to forward the movement.

It was further voted that an article be put in the morning paper for the city meeting to see what action, if any, the city will take for furthering the project for an exhibit at St. Louis.

A large number of city warrants were read and ordered paid.

The committee of the whole reported the city council had no jurisdiction in the Quinlen tax case. The report was accepted.

The report of the health officer was read and accepted.

The report of Chief of Police Brown showed 30 arrests in October, of which 20 were for intoxication. Accepted.

The report of inspector of buildings F. E. Coburn showed 22 permits granted in October.

The report of Overseer of the Poor Thurston showed \$209.53 expended in October.

The resolution appropriating \$3,000 to the water department was read a second time and adopted.

The name of Clinton street was changed to West Patterson street.

The resolution appropriating \$14,917.10 to the school fund was read a second time and adopted.

A resolution authorizing the property committee to purchase a pair of horses for the fire department was read and passed to its second reading.

Chief Campbell of the fire department was present, and stated the combination chemical and hose wagon had arrived and was on the railroad track. He said the new apparatus would need horses to draw it to fires and he had been unable to make any satisfactory arrangements with local stable men to haul the apparatus.

The fire committee and chief engineer were authorized to look around and see what a team could be secured for.

W. F. Bradford stated the expense of putting in storm doors at the entrance of the city building would be \$35. The report was accepted.

The council voted that it thought a proper division of the assessment for paving in front of the old city building, which is jointly owned by the city, Wood & Fowler and the Morse estate, would be a third of the assessment to each owner.

It was voted to name a short street leading off of Granite, above the Central track, "King Williams Place."
